

Callaway Colorado

SE **410**

Hunting for more power?

Available in LT, Z71 or ZR2 trim, the 2021 Callaway Colorado SC410 delivers 410 horsepower from GM's 3.6L DOHC V6. Callaway's intercooled, TVS1740-based supercharger, high-flow intake and exhaust systems, and precise electronic powertrain management calibration works together to produce significantly increased power with perfect drivability. The result is improved acceleration, towing and hauling capability. Plus, Callaway's inlet air path bypasses the supercharger's compressor during idle, deceleration and cruising to minimize engine load and maximize fuel economy.

Sold, serviced and financed by your local Chevrolet dealer, Callaway Colorados are ready for your purchase now. These limited production pickups come with an array of Callaway standard equipment. Plus, several Callaway options are offered to further customize your truck.

All Callaway Colorados are constructed to stringent engineering specifications by expert technicians in our Connecticut and California factories. With flawless drivability and bulletproof durability, Callaway's 3 Year/36,000 Mile Limited Warranty overlaps the factory GM warranties, providing the most comprehensive coverage of any aftermarket manufacturer.
