

Callaway Carbon Body Components

Exceptionally strong. Ultra-light. Premium quality.

- Designed and manufactured in Callaway's Temecula, California facility.
- Utilizes technology pioneered by Callaway Competition – Germany.
- Proprietary Resin Transfer Molding Process, CallawayRTM, allows computer controlled production of complex geometries.
- Unequaled quality, fit and finish.

Callaway Carbon designs and manufactures structural carbon components for military, medical and aerospace clients. Only premium quality carbon fiber parts are produced: cosmetically exquisite ornamental parts as well as exceptionally strong, ultra-lightweight structural members.

Incorporating the form-follows-function principle, Callaway Carbon parts are engineered to improve stability at speed by properly managing airflow surrounding the vehicle. Only the highest quality carbon fiber polymers and a unique coating formulation are used for flawless appearance with superior gloss and unparalleled UV protection. Perfect fiber weave and superior quality clear coat provide superb appearance. These special materials and our proprietary "Callaway RTM Process" allow Callaway to produce the best carbon fiber components available anywhere in the world.

Model/Year	Product Name	Application	Part Number
Corvette 2014-2019	AeroSpoiler	Stingray	250.72.8027
	AeroSpoiler	Z06, Grand Sport	250.72.8028
	AeroWagen Kit	Stingray, GS, Z06 Coupes - uninstalled, unpainted kit	250.72.8450
Corvette 2005-2013	Rocker Extensions	Z06, Grand Sport, 427 Conv.	250.60.8024
	Splitter	Z06, Grand Sport, 427 Conv.	250.60.8120
	Rear Spoiler	All	250.60.8402
	Aero Package	Z06, Grand Sport, 427 Conv. Includes rocker extensions, splitter, diffuser, spoiler	250.60.8450
Camaro 2010-2013	Rocker Extensions	All	250.37.8101
	Splitter	All, exc. ZL1	250.37.8127
	Diffuser	All	250.37.8128
	Rear Spoiler	All	250.37.8400
	Aero Package	All, includes rocker exts, splitter, diffuser, spoiler	250.37.8100
