

2026 Callaway Supercharged Stingray

How do you make a great car spectacular?

- Integrate a package of premium-quality performance and aesthetic equipment.
- Boost power with new Gen4™ Supercharger and TripleCooled™ Intercooling.
- Assemble per Callaway engineering specifications at Callaway factories.
- Include a Documentation Package to verify Callaway authenticity.
- Supplement GM Factory Warranties with 3 Year / 36,000 Mile Callaway Warranty.

Months of thorough, meticulous development by Callaway engineering staff have produced the Callaway Supercharged Stingray. These cars generate spectacular power (687 bhp) and sensational acceleration (0-60 mph in 2.67 sec) as new Gen4™ Supercharging, three-element TripleCooled™ intercooling and exacting CalCal™ powertrain management calibration work together to boost performance to an astonishing level.

To further personalize your Callaway, an array of available options includes the Callaway Wide Body Package and individual Aerodynamic Body Panels, Callaway Double-D Exhaust, Callaway Forged Nine-Spoke Wheels, Callaway Chassis Group, Callaway Graphics Package, and much more.

Breathtaking power isn't the only characteristic that defines a Callaway. Every Callaway comes with tasteful badging identifying your car as the "Genuine Article". Plus, an Authenticity Documentation Package is included with every Callaway build and each car is assigned its own serial number, further validating the vehicle's provenance.

All Callaway cars, SUVs and pickups are constructed to stringent engineering specifications by expert technicians in our Connecticut and California factories. With flawless drivability and bulletproof durability, Callaway's 3 Year/36,000 Mile Limited Warranty runs concurrent with the factory GM warranty term, providing the most comprehensive coverage of any aftermarket manufacturer.
