2026 Callaway Silverado SC520

SUPERCHARGED, INTERCOOLED

Callaway's patented GenThree™ TVS 2650 supercharger provides 520 horsepower and 490 lb-ft of torque, 165 hp and 107 lb-ft more than stock. Plus, Callaway's proprietary TripleCooled™ intercooler system employs three high-flow heat exchanger elements to reduce inlet air temperature, eliminating power loss typical of supercharged vehicles during aggressive driving. Fuel mileage is practically unchanged from stock as the supercharger's internal bypass diverts inlet air flow during idle, low-load cruising, and deceleration, allowing the supercharger rotors to spin freely.

RS & RT OPTION PACKAGES

Callaway's RS ("Level-DOWN") Option Package includes a set of engineered chassis components that work together to provide lowered, level ride height while maintaining ride comfort and enhancing handling performance, Callaway 22" x 10" Performance Wheels in Anthracite or Black with premium-brand performance tires, a Callaway Big Brake Package for improved braking, and supplemental Callaway "RS" badging.

Callaway's RT ("Level-UP") Option Package includes a selection of high strength suspension components expertly engineered for a raised, level stance, increased road clearance and rugged looks, Callaway 20" x 9" Performance Wheels in Anthracite or Black with premium-brand all-terrain tires, a Callaway Big Brake Package for improved braking, and supplemental Callaway "RT" badging.

INTAKE SYSTEM

The high-flow Callaway intake system includes a specifically configured inlet duct and low-restriction filter element to supply the supercharger with the extra air volume that it demands.

EXHAUST SYSTEM

The low-restriction Callaway exhaust system allows increased gas flow for more power and provides Callaway's authoritative, yet unobtrusive "signature tone".

POWERTRAIN CALIBRATION

Callaway's "CalCal" engine control components and electronic powertrain calibration integrate the Callaway components flawlessly, ensuring perfect drivability and unconstrained warranty retention. Callaway engineers' stringent testing and validation make sure that you enjoy miles of trouble-free operation.

EXPERT VEHICLE ASSEMBLY

Callaway Silverados are constructed by expert craftsmen at Callaway's California and Connecticut factories, according to stringent engineering specifications and conforming with OEM-style assembly practices.

AUTHENTICITY DOCUMENTATION

Callaway packages include select interior, exterior and underhood elements, distinguishing your Silverado as "The Genuine Article". Plus, every Callaway comes with an Authenticity Documentation Package specific to your vehicle, including a leather-bound Certificate of Authenticity, a welcome letter and other Callaway documentation.

CALLAWAY WARRANTY

Callaway's 3 Year/36,000 Mile Limited Warranty supplements the factory GM warranties, providing the most comprehensive coverage of any aftermarket manufacturer. An optional 5 Year/60,000 Mile Powertrain Service Contract is also available.
