

Callaway Cadillac CT5-V Blackwing SC780 Package

Big Stick Ideology

The Callaway CT5-V Blackwing SC780 package is the latest in the Callaway portfolio of high performance, supercharged road cars. World-class opulence propelled by 780 horsepower, the new Callaway is equipped with all of Cadillac's exclusive V-series components, supplemented with Callaway's SC performance.

With 3000 cc displacement, Callaway's patent-derived GenFour™ supercharger provides 72% more volume than the stock 1740 cc supercharger for breathtaking power. Plus, the TripleCooled™ intercooler system greatly reduces charge air temperature to prevent heat-related power loss.

Available as 6-speed manual, or 8-speed automatic, the Callaway Blackwing challenges sport sedans worldwide, while offering a pure enthusiast driving specification. Speaking softly, however, remains optional.

Sold, serviced and financed by your local Cadillac dealer; assembled at Callaway.
